Summary

Third-year B.Tech CSE (AI and Data Engineering) student at Lovely Professional University with hands-on data analysis experience from a Futurense internship, where I built MyTwin, a student performance analytics dashboard with peer benchmarking, trend analysis and CGPA projection. Skilled in Python, Pandas, NumPy, SQL and Power BI, with additional projects in fitness analytics and algorithm visualization. Seeking a data analytics internship to turn raw data into actionable insights

Experience

Data Analyst — jun 26 - jul 26
Futurence Technologies

- I built MyTwin, a student performance analytics dashboard with peer benchmarking, trend analysis and CGPA projection. Skilled in Python, Pandas, NumPy, SQL and Power BI, with additional projects in fitness analytics and algorithm visualization

Projects

- Intelligent CPU Scheduler Simulator |
- Built an interactive educational simulator for visualizing core CPU scheduling algorithms — FCFS, SJF, SRTF, Round
- Robin, Priority, and MLFQ — with configurable process inputs (arrival time, burst time, priority).

CV built on DBERT · lms.dbert.in — internships, jobs & industry certifications for students in India.
