Summary

Computer Science undergraduate with hands-on experience in full-stack development, AI-powered applications, and cloud technologies. Skilled in building scalable web applications using Next.js, React, Node.js, Express, and databases such as PostgreSQL and MongoDB. Experienced in developing AI-driven solutions, REST APIs, and deploying production-ready applications. Seeking opportunities to apply my technical skills, contribute to impactful projects, and grow as a software engineer.

Experience

AI & Cloud Technologies Int — Sep 2025 – Nov 2025
Edunet Foundation

- Developed scalable data processing components using AWS services
- Improved data processing efficiency through workflow automation
- Implemented debugging and testing strategies to enhance reliability
- Collaborated on AI-driven features with cross-functional teams

Education

B.Tech in Computer Science and Engineering — Aug 2024 – Aug 2028
College of Engineering Roorkee (COER University)

- CGPA: 7.21
- Focused on Full Stack Development and AI Applications
- Active participant in technical competitions and hackathons

Projects

- AppSpec Compiler – AI-powered compiler that converts product requirements into software specifications
- GoCart – Full-stack e-commerce platform built with Next.js, Tailwind CSS, and Prisma
- Resume Matching System – Semantic resume-job matching system using transformer embeddings and Streamlit
