Skills

Python Full stack excel AI/ML

Summary

B.Tech student in Electronics and Communication Engineering at VNIT Nagpur with a strong foundation in full-stack web development, hardware-software integration, advanced data analytics, and AI/ML. Proven track record of bridging physical hardware with digital web interfaces, highlighted by designing a fully functional electronic voting machine utilizing microcontroller/GPIO interfacing and real-time backend processing.

Education

B.tech(ECE) — Aug 2024 - June 2028
VNIT, NAGPUR
