Summary

I am a Competitive Programmer and MERN FullStack Developer with a strong passion for solving complex problems and building efficient solutions. I enjoy working with Data Structures and Algorithms and continuously improving my problem-solving skills through consistent practice and contests across platforms like Codeforces, LeetCode and CodeChef. I have solved 1000+ problems across multiple competitive programming platforms, which has helped me strengthen my logic, speed, and coding discipline. I am always eager to learn new technologies and apply my skills to real-world software development challenges.

Projects

- WhatsAppClone- Real-Time Chat app with tech satck(OTP and email login) - Typescript,Express.js,React.js,Daisyui,Socket.io
