Summary

Computer Science (Data Science) student with strong foundations in Python, SQL, data analysis, and machine learning. Passionate about transforming data into actionable insights and eager to gain hands-on industry experience through real-world projects and internships.

Experience

Data Science Master Virtual Intern — Jan 2026-March 2026
Eduskills

- Worked on data preprocessing and analysis tasks
- Created visualizations using Python tools
- Applied machine learning concepts to datasets
- Gained experience with data science workflows

Prompt Engineering Virtual Intern — April 2026 - June 2026
AICTE

- Explored Generative AI and LLM concepts
- Designed effective prompts for problem solving
- Worked with AI tools and content generation tasks

Education

B.Tech in Computer Science (Data Science) — Aug 2023 - June 2027
Malla Reddy University, Hyderabad

- CGPA: 8.8/10.0
- Relevant coursework: DBMS, Statistics, Machine Learning, Data Analytics

Projects

- ScamShield – AI Scam Analysis Assistant
- ReviewCheck – Fake Review Detection System
